Creating and Delivering a Presentation

You don't have to be a graphic designer to create an eye-catching presentation, as PowerPoint includes many visually appealing themes that are preformatted with fonts, colors, and supporting imagery. It's important for readability to create a visual hierarchy of text, such as headings and associated bullet points—and PowerPoint makes this easy. In this chapter, you will learn to create and display a basic PowerPoint presentation consisting of multiple slides and bulleted text.

LEARNING OBJECTIVES

- ▶ Create a new presentation
- ▶ Add text to slides
- ▶ Apply themes and templates
- ▶ Add slides
- ▶ Control the indent of bulleted text
- ▶ Navigate a slide show
- ▶ Hide and unhide slides

Project: Creating a Presentation

As an employee of iJams, an online music distribution company, you have been asked to make a presentation about the company at the JamWorks trade show. Your goal is to introduce iJams to trade show attendees and entice them with a promotional offer. You decide to use PowerPoint to develop and deliver your presentation because it is easy to learn and integrates seamlessly with other Microsoft Office applications.

Getting Started with PowerPoint

PowerPoint is an intuitive, powerful presentation graphics program that enables you to create dynamic, multimedia presentations for a variety of functions. Whether you are developing a one-on-one presentation for your manager or a sophisticated presentation for a large group, PowerPoint provides the tools to make your presentation a success. PowerPoint allows you to project your presentation in many ways. Most presentations are delivered via a computer projection display attached to a desktop or notebook computer. There are also other ways to deliver presentations. For example, you can deliver a presentation as an online broadcast over the Internet or save it as a video to be emailed or distributed on a CD or USB drive.

PowerPoint provides easy-to-use tools that let you concentrate on your presentation's content instead of focusing on the design details. Using PowerPoint's built-in document themes, you can rapidly create highly effective professional presentations.

Navigating the PowerPoint Window

The PowerPoint program window, like other Microsoft Office programs, includes the Quick Access toolbar at the top left and groups all commands on the Ribbon. From app to app, the Ribbon includes some common tabs and/or commands; apps also feature unique Ribbon tabs and commands. And, in PowerPoint, there are several icons and commands at the bottom of the window specific to the program and that deal with slide organization and layout, zooming, speaker notes, and commenting.

View the video “The PowerPoint Window.”

Inserting Text

PowerPoint slides have placeholders set up for you to type in. For example, the title slide currently visible on the screen has placeholders for a title and subtitle. You click in the desired placeholder to enter text on a slide. To enter the title on a slide, you click in the title placeholder and then type the text. Do not press **Enter**; the placeholders are already formatted with Word Wrap. The placeholders are also already formatted with font and paragraph settings to make a cohesive presentation. As you will see shortly, it's easy to make changes to the slide formatting by applying a theme.

DEVELOP YOUR SKILLS: P1-D1

In this exercise, you will start a new presentation and enter a title and subtitle.

1. Start PowerPoint.

Hint: Click the Start button; type PO and choose PowerPoint from the list of suggestions.

2. Click the **Blank Presentation** template on the PowerPoint Start screen.
A new, blank presentation appears. You will develop it throughout this chapter.
3. Choose **File**→**Save As** and navigate to your **PowerPoint Chapter 1** folder.
4. Name the file: **P1-D1-iJams**
5. Click the **Save** button at the bottom of the dialog box.
6. Follow these steps to add a title and subtitle:

- A** Click once on **Click to Add Title** and type: **iJams Music Distribution**
- B** Click once on **Click to Add Subtitle** and type: **Be the star you know you are!**
PowerPoint enters the titles. At this point, you have a title slide, but it looks rather plain. This is about to change.
7. Press **[Ctrl]+[S]** to save the presentation and leave it open; you will modify it throughout this chapter.
Unless otherwise directed, always keep your file open at the end of an exercise.

Using Document Themes

You can use PowerPoint's built-in document **themes**, which provide a ready-made backdrop for your presentations, to easily format all slides in a presentation. When you use a document theme, your presentation automatically includes an attractive color scheme, consistent font style and size, and bulleted lists to synchronize with the presentation's design and style. Document themes also position placeholders on slides for titles, text, bulleted lists, graphics, and other objects. By using document themes, you can focus on content by simply filling in the blanks as you create the presentation. You access document themes from the Themes group on the Design tab.

View the video "PowerPoint Document Themes."

Choosing a Theme

More than 30 document themes are included with PowerPoint. Additionally, each theme has four variations. A theme variation uses different colors and sometimes a different background. PowerPoint automatically downloads additional themes and adds them to the Themes gallery on the Ribbon if your computer is connected to the Internet. Match the theme to the type of presentation you are giving. Keep the design appropriate to the function and the audience.

Finding Additional Themes

New themes are sent to Microsoft daily, so if you just can't find the right one, browse the Microsoft Office Online website for new themes. You can also search for new themes from the PowerPoint Start screen.

DEVELOP YOUR SKILLS: P1-D2

In this exercise, you will choose a document theme and apply it to the presentation.

1. Choose **File**→**Save As** and save your file as: **P1-D2-iJams**
2. Follow these steps to choose a theme for the presentation:

Depending on your monitor resolution, you may see a different number of thumbnails in the Themes group.

- A Click the **Design** tab.
- B Locate the Themes command group.
- C Point over (don't click) the fourth theme from the left and notice that the theme's name appears as a ToolTip.

Note that your fourth theme may not match the one in the figure.

PowerPoint displays a Live Preview of the theme on your title slide. This gives you a good idea of the theme's overall design. Notice that the fonts and locations have changed for the title and subtitle. A different theme can radically redesign your presentation.

3. Point over (don't click) several more theme thumbnails.

You see a Live Preview of each theme on the actual slide. The themes visible on the Ribbon are just a small portion of those available, however.

4. Follow these steps to choose a theme:

- A** Choose **Design**→**Themes**→**More** .
- B** Point to preview the Organic theme and notice the ToolTip. (The default themes are listed in alphabetical order, followed by additional themes in alphabetical order.)
- C** Point (don't click) to preview the Wisp theme.
- D** Point to the Ion Boardroom theme and click once to apply it.

PowerPoint applies the theme to your presentation.

5. Save the presentation.

Choosing Slide Sizes

By default, PowerPoint creates slides for **widescreen format** with a 16:9 ratio. This maximizes the use of space on the slide by taking advantage of the widescreen format on most modern computers. In fact, many of the new PowerPoint themes were designed specifically for widescreen use. You can easily switch to **standard format** (4:3) from the Ribbon if you need a narrower slide or have a non-widescreen computer monitor.

View the video “Changing the Slide Size/Aspect Ratio.”

 Design→Customize→Slide Size

DEVELOP YOUR SKILLS: P1-D3

In this exercise, you will experiment with slide sizes and choose a document theme variation.

1. Save your file as: **P1-D3 - iJams**

2. Display the **Design** tab and then follow these steps to change the slide size:

- A Locate the **Customize** command group.
- B Click the **Slide Size menu** button ▼.
- C Choose **Standard (4:3)**.
- D Click the **Ensure Fit** button.

The slide is resized, and the slide title shifts to wrap across two lines.

3. Choose **Design**→**Customize**→**Slide Size**→**Widescreen (16:9)** to return the slide to widescreen format.
4. Locate the **Design**→**Variants** group on the Ribbon.
5. Point to several theme variations to view the Live Preview on the slide.
6. Click the second variation (with the green background) to apply it.

7. Save the presentation.

Creating a Basic Presentation

There is more to creating a presentation than placing one slide after another. Choosing the appropriate slide layout, just like choosing the appropriate design, will influence how well your audience understands your message. Use the following guidelines when choosing your slide design and layout:

- ▶ **Know your audience:** Will you be speaking to accountants or artists?
- ▶ **Know your purpose:** Are you introducing a product or giving a report?
- ▶ **Know your expectations:** When the last word of this presentation has been given, how do you want your audience to respond to your facts? Are you looking for approval for a project or customers for a product?

Adding Slides

You can add slides to a presentation from the Ribbon or by right-clicking with the mouse. PowerPoint always places the new slide after the currently selected slide.

The Slides panel displays thumbnails of your presentation while you work in the Normal view. The Slide Sorter view, like the Slides panel, also displays thumbnails of your slides. This view can be useful when there are more slides than can fit in the Slides panel display.

☰ Home→Slides→New Slide  | Right-click a slide in the Slides panel→New Slide 

DEVELOP YOUR SKILLS: P1-D4

In this exercise, you will add a new slide to the presentation and then enter content.

1. Save your file as: **P1-D4-iJams**
2. Choose **Home→Slides→New Slide** .
PowerPoint adds a new slide to the presentation immediately after the title slide.
3. Click once in the title placeholder and then type: **Our Services**
4. Click once on the **Click to Add Text** placeholder and then type this list, tapping **Enter** after each list item except the last:
 - **CD duplication on demand** **Enter**
 - **Jewel-case-insert printing** **Enter**
 - **Full-service online sales** **Enter**
 - **Downloadable MP3 distribution**

PowerPoint adds a bullet point character in front of each line.
5. Save the presentation.

Duplicating a Slide

Sometimes it is more efficient to duplicate a slide and then edit it rather than to begin a new slide from scratch. Slides can be duplicated via the Slides panel.

☰ One slide: Right-click the slide in the Slides panel→Duplicate Slide 

☰ Multiple slides: Select the slides, right-click one in the Slides panel→Duplicate Slide

Bulleted Lists

You can effortlessly create bulleted lists to outline the thrust of your presentation. The bulleted list layout is an outline of nine levels. A different indentation is used for each level. When you use a document theme, each paragraph is automatically formatted as a bulleted list. The format includes a bullet style, indentation level, font type, and font size for each bulleted paragraph.

- ▶ CD labeling
 - ▶ Full color
 - ▶ Laser etching
- ▶ Jewel case
 - ▶ Back and spine of case
 - ▶ Insert
 - ▶ Single sheet
 - ▶ Up to 10-page booklet

☰ Home→Paragraph→Bullets 

List Levels

To indent a bullet is to **demote** it or to increase the list level. Typically, a main bullet point has one or more sub-bullets, which are smaller than the main bullet, are created by increasing the list level. When a list level is increased, the bullets are indented toward the right and the text is made smaller. Conversely, to decrease a bullet's indent by moving it more toward the left and increasing the bullet and text size is to **promote** it or to decrease the list level. PowerPoint supports a main bullet and up to eight levels of sub-bullets (nine levels total).

 Promote: Home→Paragraph→Decrease List Level  | **Shift** + **Tab**

 Demote: Home→Paragraph→Increase List Level  | **Tab**

DEVELOP YOUR SKILLS: P1-D5

In this exercise, you will create a new slide and then enter information into a multilevel bulleted list.

1. Save your file as: **P1-D5-iJams**
2. Choose **Home**→**Slides**→**New Slide** .
PowerPoint creates a new slide after the current slide.
3. Click in the title placeholder and type: **Packaging Options**
4. Click in the text placeholder and then type **CD labeling** and tap **Enter**.
*PowerPoint formats the new blank paragraph with the same large bullet. Paragraph formats are carried to new paragraphs when you tap the **Enter** key.*
5. Tap **Tab**.
PowerPoint indents the paragraph. It also introduces a new, slightly smaller style for the level-2 paragraph.
6. Type: **Full color**
PowerPoint formats the paragraph in a smaller font, too.
7. Tap **Enter**.
PowerPoint maintains the same level-2 formatting for the next paragraph.
8. Type **Laser etching** and tap **Enter**.
9. While holding down **Shift**, tap **Tab** once.
PowerPoint promotes the new paragraph back to the level-1 style, which is the level of the first paragraph on the slide.

Manipulate Heading Levels

You can also adjust the level after you have typed a paragraph.

10. Type these lines, tapping **Enter** after each list item except the last:
 - **Jewel case** **Enter**
 - **Back and spine of case**

11. Follow these steps to indent the last bullet:

- A** Click once anywhere within the paragraph to be indented.
B Choose **Home**→**Paragraph**→**Increase List Level**.

PowerPoint indents the paragraph and changes the bullet style. Demoting a paragraph makes it subordinate to the preceding paragraph.

12. Click the **Home**→**Paragraph**→**Increase List Level** button three more times.

The bullet and font sizes change with each level increase. These formats are determined by the Ion Boardroom theme, on which the presentation is based.

13. Click **Home**→**Paragraph**→**Decrease List Level** three times until the bullet reaches the second indentation.

With each promotion, the bullet style changes.

Indent Multiple Bullets

14. Click once at the end of the last paragraph and then tap **Enter**.
15. Type these new lines, tapping **Enter** after each list item except the last:
- **Insert** **Enter**
 - **Single sheet** **Enter**
 - **Up to 10-page booklet**
16. Follow these steps to select the last two paragraphs for your next command:

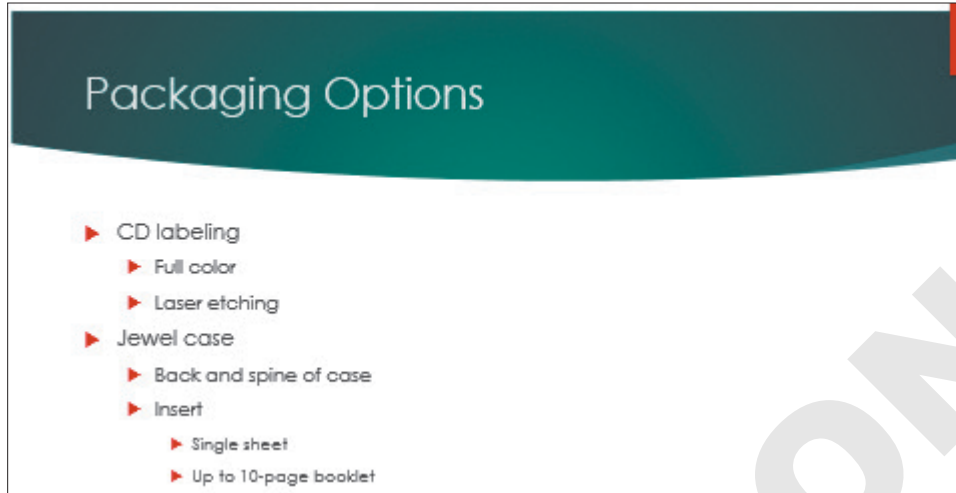

- A** Point at the beginning of *Single sheet*, taking care that a four-pointed arrow is not visible.
B Drag down and right to select (highlight) to the end of the last paragraph; release the mouse button.
C Ignore the Mini toolbar that appears. Do not click anywhere else on the slide.

17. Choose **Home**→**Paragraph**→**Increase List Level**.

PowerPoint indents the two selected paragraphs.

18. Click anywhere outside the border to deselect the text.

Your slide should match this illustration.

19. Save the presentation.

Choosing the Slide Layout

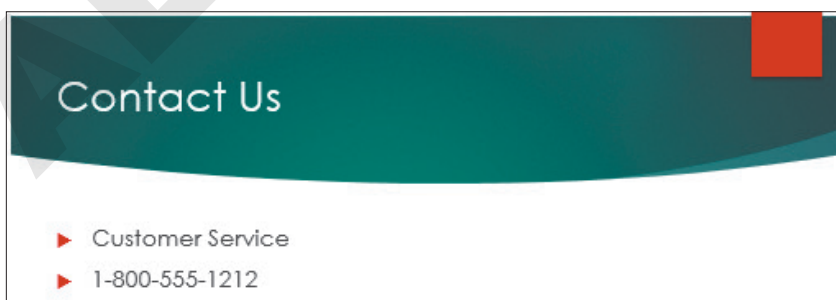

A **slide layout** is named for the type of data it will contain. For example, the Title layout needs only a title and subtitle. The Content layout will hold other information on the slide, so it has a title and a bulleted list for points. Likewise, the Content with Caption layout is divided into three sections: title, text to one side, and an area for clip art or additional text. The slide layout organizes the information you put into the presentation by giving it a place on the slide. When changing the slide layout, the new layout is applied to all selected slides. There are nine standard layouts, but many themes offer additional layouts.

☰ Home→Slides→Layout  | Right-click a slide in the Slides panel

Aligning Text

PowerPoint automatically aligns text to the left, right, or center depending on the theme. However, you may want to override the **alignment** at times to create a different look for a slide.

☰ Home→Paragraph→click an alignment button

The default formatting for this slide is left-aligned text.

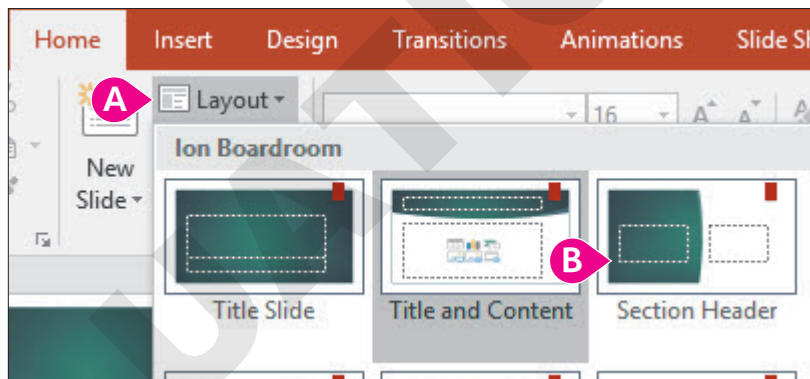

The text has been centered and bullets removed for a different look.

DEVELOP YOUR SKILLS: P1-D6

In this exercise, you will add a new slide and then change its layout.

1. Save your file as: **P1-D6-iJams**
2. If necessary, select the **Packaging Options** slide from the Slides panel on the left side of your screen.
3. Choose **Home**→**Slides**→**New Slide** .

PowerPoint adds another slide to the end of the presentation. Like the previous two slides, this one is set up to display a bulleted list.
4. Follow these steps to choose a new layout for the slide:

- A Choose **Home**→**Slides**→**Layout menu button** ▼.
- B Choose the **Section Header** slide layout.

PowerPoint applies the new layout. Now there are two placeholders, for a title and subtext.

5. Enter this text:
 - Title: **Questions?**
 - Text: **End of our brief presentation**

6. Click the dashed border of the text box to select it.
7. Choose **Home**→**Paragraph**→**Center** .

8. Save the presentation.

Delivering the Slide Show

The slides are created, and the presentation is complete. The first phase of the presentation development is over. The next phase, delivering the presentation, is just beginning. Before you stand in front of an audience, familiarize yourself with the following tips.

 Start slide show: Slide Show→Start Slide Show→From Beginning  or From Current Slide 

 End slide show: Tap **[Esc]** or click the window until the slide show ends

Delivery Tips

It's not only what you say but how you say it that makes the difference between an engaging presentation and an unsuccessful one. Lead your audience. Help it to focus on your presentation's message, not on you as the presenter. Use the *PEER* guidelines to deliver an effective presentation.

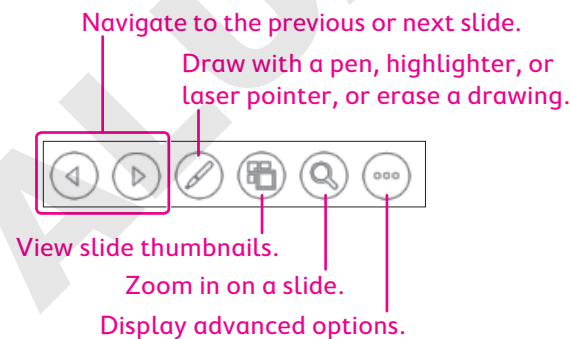

- ▶ **Pace:** Maintain a moderate pace. Speaking too fast will exhaust your audience and speaking too slowly may put them to sleep. Carry your audience with you as you talk.
- ▶ **Emphasis:** Pause for emphasis. As you present, use a brief pause to emphasize your point. This pause will give the audience time to absorb your message.
- ▶ **Eye contact:** Address your audience. Always face your audience while speaking. A common mistake is to speak while walking or facing the projection screen. Don't waste all the work you have done in the presentation by losing your audience's interest now. If you are speaking from a lectern or desk, resist the temptation to lean on it. Stand tall, make eye contact, and look directly at your audience.
- ▶ **Relax:** You are enthusiastic and want to convey that tone to the audience. However, when you speak, avoid fast movement, pacing, and rushed talking. Your audience will be drawn to your movements and miss the point. Remember that the audience is listening to you to learn; this material may be old hat to you, but it's new to them. Speak clearly, maintain a steady pace, and stay calm.

Navigating Through a Slide Show

You can use the mouse and/or simple keyboard commands to move through a slide show. These are the easiest ways to navigate from one slide to the next.

The Slide Show Toolbar

The **Slide Show toolbar** is your navigator during the slide show. It is hidden when a slide show starts but becomes visible when you move your mouse around or point to the lower-left area of the screen. The Slide Show toolbar can be used to navigate a slide show or to draw attention to a specific area on a slide. However, use of this toolbar is unnecessary when you present a simple slide show like this one.

View the video "The Slide Show Toolbar."

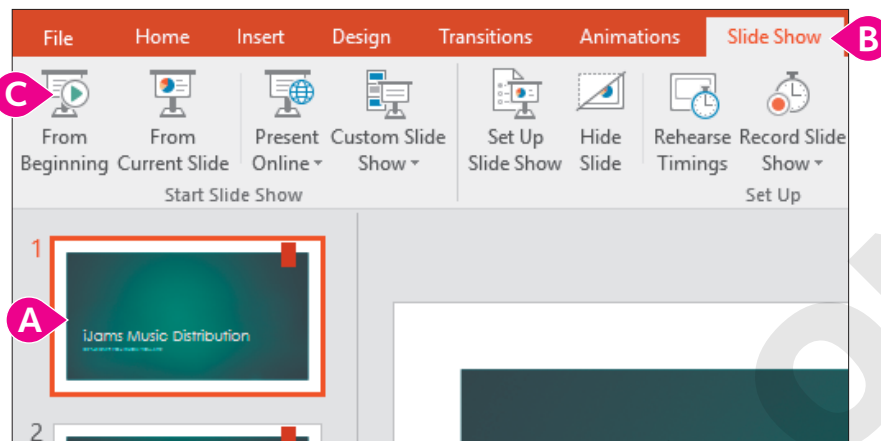

≡ Advance one slide: **Spacebar**, **→**, **Page Down**, or **Enter**

≡ Back up one slide: **Backspace**, **←**, or **Page Up**

DEVELOP YOUR SKILLS: P1-D7

In this exercise, you will navigate through your slide show.

1. Follow these steps to start the slide show:

- A Click the **title slide** in the Slides panel to select it.
 - B Click the **Slide Show** tab.
 - C Choose **Start Slide Show**→**From Beginning**.
2. Move the mouse pointer around the screen for a moment.
Notice the Slide Show  toolbar near the bottom-left corner of the screen when the slides are in full-screen view.
3. Click the mouse pointer anywhere on the screen to move to the next slide.
4. Tap **Page Down** twice and then tap **Page Up** twice, using the keys near the main keyboard (not the keys on the numeric keypad).
PowerPoint displays the next or previous slide each time you tap these keys.
5. Follow these steps to use the Slide Show toolbar:

- A Point to the lower-left area of the slide to display the Slide Show toolbar.
 - B Click **Show All Slides** to display thumbnails of all slides.
6. Click the **Packaging Options** slide.
As you can see, there are many ways to navigate slides in an electronic slide show.

End the Slide Show

7. Continue to click anywhere on the screen until the last slide appears (the Questions slide).
8. Click once on the **last slide**.
The screen turns to a black background, with a small note at the top.
9. Click anywhere on the black screen to exit the slide show and return to the main PowerPoint window.
Feel free to practice running your slide show again.

Hide and Unhide Slides

Sometimes, a presentation may contain slides that you don't want to show. For example, you might have a slide with information that needs to be updated but you didn't have time to complete the update before presenting. Rather than deleting the slide and then recreating it later, you can hide the slide so it doesn't display during the presentation. You can then update the slide at your leisure and make it visible for presentations later. Hidden slides are still visible in the Slides panel.

DEVELOP YOUR SKILLS: P1-D8

In this exercise, you will hide and unhide a slide.

1. Display the **Packaging Options** slide.
2. Choose **Slide Show**→**Set Up**→**Hide Slide** .

The Hide Slide button in the Ribbon now appears selected and the slide thumbnail in the Slides panel on the left side of the PowerPoint window is grayed out, indicating that the slide will be hidden during a slide show.
3. Choose **Slide Show**→**Start Slide Show**→**From Beginning** .
4. Navigate through the slide show until it ends and you are returned to the main PowerPoint window.

The hidden slide, Packaging Options, does not display during the slide show.
5. Display the **Packaging Options** slide.
6. Choose **Slide Show**→**Set Up**→**Hide Slide**.

The slide is unhidden.
7. Save the presentation.
8. Choose **File**→**Close** to close the presentation.

Presenter View

If you have multiple computer monitors, you can use Presenter View to help you deliver a presentation with more confidence. With Presenter View, one screen shows the slide show as the audience sees it while the other screen, which is visible to the presenter only, displays slide notes, a preview of the next slide, and slide show controls. Presenter View works automatically if you are using multiple monitors.

Presenter View on left and audience view on right

 Slide Show→Monitors→Use Presenter View

Creating a Presentation from a Template

A template is similar to a theme but goes one step further in that it includes starter slides and content in addition to a design theme. Microsoft offers many free templates that can be downloaded directly from within PowerPoint. These templates are a great way to jump-start your presentation design and slide content.

Searching for Templates

While you can search for templates directly from within PowerPoint, the results are not limited to PowerPoint. The search feature locates templates for any Office app, including Word, Excel, and other apps. If the results display as slide thumbnails, then the template will work in PowerPoint. It will be obvious if the template is for a different app, as the thumbnails will be collapsed under the app name.

Search results display as PowerPoint slide thumbnails or are collapsed under their app names.

Downloading and Applying a Template

When you find a template you like via the search, you can download it directly from the search results window. When the download is complete, a new presentation is automatically created with the template's design theme and starter slides.

DEVELOP YOUR SKILLS: P1-D9

In this exercise, you will search for and apply a template.

1. Choose **File**→**New**.
2. Under the search box, type **Biography** and tap **Enter**.
You can also click one of the suggested search links.
3. Click the **Biography Presentation** template if it is available; if it's not, choose any other template.
A message box displays a description of the template.
4. Click the **Create** button in the message box.
A new eight-slide presentation based on the template is created. The slides have placeholder content ready for you to edit. Additionally, the Help panel opens and offers tips for working with this template.
5. Close the Help panel.
Once you become more comfortable using PowerPoint, the tips in the Help panel will be more useful.
6. Triple-click the slide title, **Presentation Title**, to select it and then type: **Our Fearless Leader**
7. Display each slide and notice the starter content is editable and ready for you to customize.
8. Experiment with each slide and edit the starter content.
9. Save the presentation as **P1-D9-Template** and then exit PowerPoint.

Self-Assessment

Check your knowledge of this chapter's key concepts and skills using the Self-Assessment in your ebook or online (eLab course or Student Resource Center).

Reinforce Your Skills

REINFORCE YOUR SKILLS: P1-R1

Create a Basic Presentation

In this exercise, you will begin to create a presentation for the Kids for Change organization—a community-based organization that helps socially aware youth plan and organize events that benefit their community. The presentation will be used to recruit new members and will be shown in high schools across the country.

1. Start PowerPoint and create a new, blank presentation.
2. Save the presentation to your file storage location as: **P1-R1-Kids**
3. Choose **Design**→**Themes** and apply the **Facet** design theme.
4. Choose **Design**→**Variants** and apply the second variant (blue).
5. Click in the title placeholder and type: **Kids for Change**
6. Click in the subtitle placeholder and type: **I can make a difference**
7. Save the presentation.

REINFORCE YOUR SKILLS: P1-R2

Add Slides and Deliver a Presentation

In this exercise, you will complete the Kids for Change recruitment presentation by adding slides and text. Then you will deliver the presentation.

1. With the **P1-R1-Kids** presentation still open, choose **File**→**Save As** and save it as: **P1-R2-Kids**
2. Choose **Home**→**Slides**→**New Slide** .
3. Choose **Home**→**Slides**→**Layout menu button** ▼ →**Two Content**.
4. Click in the title placeholder and type: **Events**
5. Add this text to the bulleted list on the left:
 - **iRecycling Day**
 - **Toy Collection**
 - **Shave and a Haircut**
 - **Diversity Festival**
6. Add this text to the bulleted list on the right:
 - **Build-a-House**
 - **Bully No More**
 - **Adopt a Street**
 - **Tutoring**

7. Save your presentation.

After completing a significant portion of work, it's a good idea to save what you've done before continuing.

8. Add a new slide with the title **Program Benefits** and notice it is already using the Two Content layout.
9. Add this text and indentation to the bulleted list on the left:

- ▶ **Personal**
 - ▶ **College application**
 - ▶ **Leadership skills**
 - ▶ **Sense of accomplishment**

10. Add this text and indentation to the bulleted list on the right:

- ▶ **Community**
 - ▶ **Crime reduction**
 - ▶ **Increased literacy**
 - ▶ **Improved health**

11. Add a new slide with the title: **Requirements**

12. Change the slide layout to: **Title and Content**

13. Type these bullet points in the text box:

- **You need**
- **Positive attitude**
- **Strong work ethic**
- **Time commitment**
- **One monthly event**
- **One annual meeting**

14. Select the **Positive attitude** and **Strong work ethic** paragraphs and choose **Home**→**Paragraph**→**Increase List Level** .

15. Select the **One monthly event** and **One annual meeting** paragraphs and choose **Home**→**Paragraph**→**Increase List Level** .

16. Add a new slide with the title **Regional Contact** and notice that it is already using the Title and Content layout.

17. Type this in the text box:

- **Angelica Escobedo**
- **(800) 555-0101**

18. Click the dashed border of the text box to select it.

19. Choose **Home**→**Paragraph**→**Bullets**  to remove the bullets from the text.

20. Choose **Home**→**Paragraph**→**Center**  to center both paragraphs on the slide.

21. Save the presentation.

Deliver the Slide Show

22. Choose **Slide Show**→**Start Slide Show**→**From Beginning** .

The slide show starts from the first slide regardless of which slide is currently selected.

23. Navigate through the presentation by clicking the screen until the presentation is ended.
24. Click once more to return to the PowerPoint program window.
25. Choose **Slide Show**→**Start Slide Show**→**From Beginning**  to restart the slide show from the beginning.
26. Move your mouse to the bottom-left corner of the screen to display the Slide Show toolbar.
27. Click the **Show All Slides**  button on the toolbar to display all the slide thumbnails.
28. Click the **Program Benefits** slide to go directly to it.
29. Tap **[Esc]** to end the slide show.

Hide a Slide

The regional contact will be out of town when the presentation is given, so you will hide the slide that displays that contact information.

30. Select the **Regional Contact** slide from the Slides panel.
31. Choose **Slide Show**→**Set Up**→**Hide Slide**.
32. Run the slide show and ensure the Regional Contact slide does not display.
33. Save the presentation and then exit PowerPoint.

REINFORCE YOUR SKILLS: P1-R3

Create an Events Promotion Presentation

In this exercise, you will create and deliver a new Kids for Change presentation to advertise upcoming events.

1. Start PowerPoint and create a new, blank presentation.
2. Save the presentation to your file storage location as: **P1-R3-Kids**
3. Choose **Design**→**Themes** and apply the **Slice** theme.
4. Choose **Design**→**Variants** and apply the fourth theme variation (orange).
5. Add **Kids for Change** for the title and **June Event** for the subtitle.
6. Add a new slide with the title: **Shave and a Haircut**
7. Add this bulleted text:
 - **Free haircuts**
 - **Free shaves**
 - **Free mustache and beard trimming**
8. Save your presentation.
9. Add a new slide with the title: **Participating Locations**
10. Choose **Home**→**Slides**→**Layout menu button** ▼→**Two Content**.

11. Type the following, with indentations, in the left text box:

- ▶ Barbers
 - ▶ Sam the Barber
 - ▶ Hats Off
 - ▶ Clean Cuts

12. Type the following, with indentations, in the right text box:

- ▶ Shelters
 - ▶ Shelter on Main
 - ▶ Helping Hand
 - ▶ Safe Night

13. Add a new slide with the title: **Dates and Availability**
14. Choose **Home**→**Slides**→**Layout menu button** ▼→**Title and Content**.
15. Type these bullet points in the text box:
- **All Locations**
 - **Every Saturday in June**
 - **8:00am - 8:00pm**
 - **Availability**
 - **Free service to help our community's homeless**
16. Select the two paragraphs under *All Locations* and increase their list level.
17. Select the last paragraph and increase its list level.
18. Add a final slide with the title: **Sponsored By**
19. Click the dashed border to select the entire Title text box.
20. Choose **Home**→**Paragraph**→**Center**  to center the text on the slide.
21. Type **Kids for Change** in the text box.
22. Click the dashed border to select the entire text box.
23. Choose **Home**→**Paragraph**→**Bullets**  to remove the bullets from the text.
24. Choose **Home**→**Paragraph**→**Center**  to center the text on the slide.
25. Save your presentation.

Deliver the Slide Show

Create a Presentation for the New Products and Stores Webinar

The marketing director for Taylor Games wants you to take the lead on creating a vibrant presentation. In this exercise, you will create a PowerPoint presentation for the New Products and Stores webinar.

1. Download and open your Project Grader starting file.
 - *Using eLab:* Download **P1_P1_eStart** from the Assignments page. You *must* start with this file or your work cannot be automatically graded.
 - *Not using eLab:* Open **P1_P1_Start** from your **PowerPoint Chapter 1** folder.
2. Hide **slide 1**, *Webinar Notes*.
3. Change the layout of **slide 2** to **Title Slide**.
4. On **slide 2**, change the slide size to **Standard (4:3)** and maximize the fit.
5. Add the following text to **slide 2**:

Title	New at Taylor Games
Subtitle	Products, Stores, and More!

6. Insert a new **Title and Content** slide after **slide 2**.
7. Enter this text as the new slide's title: **Webinar Agenda**
8. Apply **Center** alignment to the new slide's title.
9. Add the following bulleted text to the new slide:
 - **Introductions**
 - **New Products**
 - **Books**
 - **Dice**
 - **Games**
 - **New Stores**
 - **Portland, OR**
 - **Spokane, WA**
10. Increase the list level (the indent) by one for the following bullets: **Books**; **Dice**; **Games**; **Portland, OR**; and **Spokane, WA**.
11. Apply the **Facet** theme to the presentation.
12. Save your presentation.
 - *Using eLab:* Save it to your **PowerPoint Chapter 1** folder as **P1_P1_eSubmission** and attach the file to your eLab assignment for grading.
 - *Not using eLab:* Save it to your **PowerPoint Chapter 1** folder as: **P1_P1_Submission**

 - *Not using eLab:* Save it to your **PowerPoint Chapter 1** folder as: **P1_P2_Submission**

Extend Your Skills

These exercises challenge you to think critically and apply your new skills in a real-world setting. You will be evaluated on your ability to follow directions, completeness, creativity, and the use of proper grammar and mechanics. Save files to your chapter folder. Submit assignments as directed.

P1-E1 That's the Way I See It

In this exercise, you will create a presentation for a charity you feel strongly about to educate others about it. First, decide on a known charity you support or agree with. If you don't know of any, think of a few ideas for charities (such as saving animals or the environment, ensuring human rights, curing disease, etc.) and then search the Internet for a reputable charity that deals with one of those topics.

Create a new, blank presentation named **P1-E1-Charity** and apply the design theme and variation of your choice. Use the charity name as the slide title and type a short, descriptive phrase for the subtitle. Add a Title and Content slide that lists at least four actions the charity takes toward bettering its cause. Add a Two Content slide: On the left, list a few facts about the charity and, on the right, list ways to donate to the charity. Create a final slide with the Section Header layout that duplicates the content on the title slide. View the presentation as a slide show and make a mental note of anything you want to change. When the slide show ends, make your changes and then save your presentation.

P1-E2 Be Your Own Boss

Your landscaping business, Blue Jean Landscaping, saves its customers money by having them share in the physical labor. You are creating multiple slides with varying layouts and bulleted text to advertise your unique business to potential investors. Create a new, blank presentation named **P1-E2-BlueJean** and apply the desired design theme and variation. Use the company name as the slide title and create a catchy phrase for the subtitle. Add a Title and Content slide that lists four services your company provides. Add a Two Content slide that lists the mutual benefits to the company and the customer: The left column uses *Us* as the first bullet, and the right column uses *You* as the first bullet. Then list at least three benefits for the company (left) and at least three for the customer (right). Increase the list level of all bullets except the first in each column.

Create a final slide with the Section Header layout that duplicates the content on the title slide. Run the slide show. Use the Slide Show toolbar to navigate the slide show and experiment with the other buttons on the toolbar.

P1-E3 Demonstrate Proficiency

Stormy BBQ, a restaurant featuring fresh, locally grown vegetables and local, farm-raised pork/beef, is considering expanding to new locations. Create a presentation from a template (you might search using key terms *restaurant* or *food*) named **P1-E3-Stormy** to show at a local town hall meeting to convince residents and community leaders that Stormy BBQ would be a great fit for their community. Create at least five slides, including the title slide, with a different layout for each slide. At least one slide should include bullet points with varying list levels.
