QuickBooks Student Files are NOT Compatible with Mac Computers

Labyrinth's QuickBooks Pro textbooks are designed to teach the PC version of the QuickBooks software. The only option for Mac users is to install dual boot software such as Boot Camp that allows Macs to run Windows 7. Information about Boot Camp can be found at http://support.apple.com/kb/HT1461.

Please note: Labyrinth Learning provides technical support for PC users only. If you choose to use a Mac computer with Boot Camp and Windows 7, Labyrinth Learning will NOT be able to provide technical support.
