LESSON 1 WINDOWS: COMPUTER CONCEPTS

Categorizing Computer Systems	ecs01.3
Units of Measure	ecs01.3
Computer Hardware Categories	ecs01.5
Processing Hardware	ecs01.5
Processor	ecs01.5
Random Access Memory (RAM)	ecs01.6
Surge Protection	ecs01.8
Storage Hardware	ecs01.8
Permanent Storage Drives	ecs01.8
External Drives	ecs01.11
Card Readers	ecs01.11
Output Hardware	ecs01.11
Computer Screens	ecs01.11
Printers	ecs01.12
Input Hardware	ecs01.13
Common Input Devices	ecs01.13
USB Ports	ecs01.14
Webcams	ecs01.14
Computer Software	ecs01.15
Software Files	ecs01.15
The Operating System	ecs01.15
Application Programs	ecs01.17
Antimalware Software	ecs01.18
User Files	ecs01.18
Networking	ecs01.19
Types of Networks	ecs01.19
Networking Hardware	ecs01.20
Modems	ecs01.20
Network Connection Hardware	ecs01.21
Network Protocols	ecs01.21
Concepts Review	ecs01.22
Reinforce Your Skills	ecs01.22
Apply Your Skills	ecs01.26
Learning Projects	ecs01.27

LESSON 2

WINDOWS: CONTROLLING PROGRAMS

Starting Windows	ecs02.3
Starting a Session	ecs02.3
Signing On (Windows 8.1)	ecs02.4
The Windows Desktop	ecs02.6
The Windows 7 Desktop	ecs02.6
Windows 8.1 Has Two Desktops	ecs02.6
Windows 8.1 Terminology	ecs02.7
Starting Applications	ecs02.8
The Start Menu (Windows 7)	ecs02.8
The Start Screen (Windows 8.1)	ecs02.9
Basic Mouse Motions	ecs02.9
The Windows Taskbar	ecs02.12
Pinning Programs to the Taskbar	ecs02.12
Searching for Programs	ecs02.12
Controlling Desktop Windows	ecs02.15
Program Window Features	ecs02.15
Quick Sizing Buttons	ecs02.16
Positioning and Shaping Program Windows	ecs02.17
Multitasking	ecs02.19
Switching Programs	ecs02.22
Aero Window Commands	ecs02.25
Sleep and Other Modes	ecs02.27
Logging Off (Windows 7)	ecs02.27
Signing Out (Windows 8.1)	ecs02.27
Shutting Down Windows	ecs02.30
Restarting Windows	ecs02.30
Concepts Review	ecs02.33
Reinforce Your Skills	ecs02.33
Apply Your Skills	ecs02.38
Learning Projects	ecs02.44

LESSON 3**WINDOWS 7: MANAGING FILES**

What Is File Management?	ecs03.3
File-Management Tasks	ecs03.3
Browsing Files	ecs03.4
File Explorer	ecs03.4
Changing the View	ecs03.6
Opening Files	ecs03.8
Creating Favorites Locations	ecs03.8
Opening Recently Used Files	ecs03.10
Searching for Files	ecs03.10
Creating Folders	ecs03.13
Folder Hierarchy	ecs03.13
Moving and Copying Files	ecs03.16
Selecting Multiple Files for Commands	ecs03.16
Renaming Files and Folders	ecs03.19
File-Naming Rules	ecs03.19
Changing a Filename from Within a Program	ecs03.19
Deleting Files and Folders	ecs03.22
What Happens to Deleted Files and Folders?	ecs03.22
Emptying Files from the Recycle Bin	ecs03.25
Restoring Files from the Recycle Bin	ecs03.25
Backing Up Flash Drives	ecs03.27
Storing Backups	ecs03.27
Safely Removing Hardware	ecs03.30
Safely Remove Hardware Command	ecs03.30
Concepts Review	ecs03.32
Reinforce Your Skills	ecs03.32
Apply Your Skills	ecs03.39
Learning Projects	ecs03.44

LESSON 4**WINDOWS 8.1: MANAGING FILES**

What Is File Management?	ecs04.3
File-Management Tasks	ecs04.3
Browsing Files	ecs04.4
File Explorer	ecs04.4
Changing the View	ecs04.7
Opening Files	ecs04.7
Creating Favorites Locations	ecs04.7
Opening Recently Used Files	ecs04.9
Searching for Files	ecs04.9
Creating Folders	ecs04.11
Folder Hierarchy	ecs04.12
Moving and Copying Files	ecs04.15
Selecting Multiple Files for Commands	ecs04.15
Renaming Files and Folders	ecs04.18
File-Naming Rules	ecs04.18
Changing a Filename from Within a Program	ecs04.18

Deleting Files and Folders	ecs04.21
What Happens to Deleted Files and Folders?	ecs04.21
Emptying Files from the Recycle Bin	ecs04.23
Restoring Files from the Recycle Bin	ecs04.23
Backing Up Flash Drives	ecs04.25
Storing Backups	ecs04.25
Safely Removing Hardware	ecs04.28
Safely Remove Hardware Command	ecs04.28
Concepts Review	ecs04.30
Reinforce Your Skills	ecs04.30
Apply Your Skills	ecs04.38
Learning Projects	ecs04.43

LESSON 5**THE INTERNET: SEARCHES AND WEB 2.0**

Browsing the Web	ecs05.3
The Homepage	ecs05.3
Internet Explorer Tablet App and Application	ecs05.3
Web Browser Features	ecs05.4
URLs	ecs05.5
Searching the Web	ecs05.6
Address Bar Search	ecs05.6
Adding Search Providers	ecs05.8
Setting a Default Search Provider	ecs05.8
Using Tabbed Browsing	ecs05.11
Saving Images from the Web	ecs05.13
Copyright	ecs05.13
Fair Use	ecs05.14
What Is Web 2.0?	ecs05.16
Web 2.0 Activities	ecs05.16
Threaded Discussions	ecs05.17
Two Types of Online Communications	ecs05.17
Conducting Online Meetings	ecs05.21
Joining a Meeting	ecs05.21
Hosting Meetings	ecs05.21
Concepts Review	ecs05.24
Reinforce Your Skills	ecs05.24
Apply Your Skills	ecs05.29
Learning Projects	ecs05.33

LESSON 6 THE CLOUD: STORING FILES AND SHARING ONLINE

What Is the Cloud?	ecs06.3
Servers	ecs06.3
Services	ecs06.4
Storing Files Online	ecs06.4
Watched Folders	ecs06.4
Modifying Watched Folders	ecs06.5
Synchronized Storage	ecs06.6
Saving to a Watched Folder	ecs06.7
Web Access to Cloud Storage	ecs06.8
Navigating Cloud Storage	ecs06.9
Downloading and Uploading	ecs06.11
Online Applications	ecs06.15
Capabilities	ecs06.15
Sharing Files	ecs06.19
Types of Sharing	ecs06.19
Online Shared Document Editing	ecs06.19
Sharing Folders	ecs06.22
Shared Sync	ecs06.22
File Compatibility and Conversion	ecs06.25
Converting a File	ecs06.25
Concepts Review	ecs06.27
Reinforce Your Skills	ecs06.27
Apply Your Skills	ecs06.40
Learning Projects	ecs06.45

LESSON 7 OUTLOOK: EMAIL AND ATTACHMENTS

What Is Email?	ecs07.3
History	ecs07.3
Webmail	ecs07.3
Email Clients	ecs07.3
Using Outlook 2013	ecs07.4
The Outlook Program Window	ecs07.4
Outlook Task Features	ecs07.4
Introducing the Ribbon	ecs07.7
Finding Commands on the Ribbon	ecs07.7
Working with Email	ecs07.10
Composing a Message	ecs07.10
Email Addresses	ecs07.11
Working with Email Attachments	ecs07.13
Sending Attachments	ecs07.13
Saving Attachments	ecs07.16
Attachment Security Risks	ecs07.16
Concepts Review	ecs07.18
Reinforce Your Skills	ecs07.18
Apply Your Skills	ecs07.22
Learning Projects	ecs07.26
<i>Quick Reference Guide</i>	Guide.1
<i>Glossary</i>	Gloss.1
<i>Index</i>	Index.1

Table of Contents

WORD 2013 LESSON 1: INTRODUCING WORD BASICS

- Presenting Word 2013
- Starting Word
- Viewing the Word Start Screen
- Viewing the Word 2013 Window
- Opening Documents
 - Opening Older Word Documents
- Working with the Word 2013 Interface
 - Collapsing the Ribbon
 - Customizing the Quick Access Toolbar
- Navigating in a Word Document
 - Navigating with the Scroll Bar
 - Navigating with the Keyboard
- Closing Documents
- Starting a New Document
 - Typing and Editing in Word
- Saving Your Work
 - Word's DOCX File Format
- Getting Help in Word 2013
- Exiting from Word
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

WORD 2013 LESSON 2: CREATING AND EDITING BUSINESS LETTERS

- Defining Typical Business Letter Styles
 - Block Style
 - Modified Block Style
- Inserting Text
 - Using AutoComplete
 - Using the Enter Key
 - Showing Formatting Marks
 - Spacing in Letters
- Creating an Envelope
- Selecting Text

- Editing Text
 - Inserting and Deleting Text
 - Using Undo and Redo
- Working with AutoCorrect
 - Using the AutoCorrect Options
 - Smart Tag
 - Customizing AutoCorrect
 - Setting AutoFormat As You Type Options
- Copying and Moving Text
 - Working with the Clipboard
 - Editing with Drag and Drop
- Switching Between Documents
- Using Page Layout Options
 - Setting Margins
 - Setting Page Orientation and Paper Size
- Working with Print and Print Preview
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

WORD 2013 LESSON 3: CREATING A MEMORANDUM AND A PRESS RELEASE

- Typing a Memorandum
 - Introducing Default Tabs
 - Inserting and Formatting the Date
 - Inserting Symbols
- Working with Page Breaks
 - Removing Manual Page Breaks
- Working with Proofreading Tools
 - Using the Spelling Checker
 - Working with Word's Dictionaries
 - Using the Grammar Checker
 - Using the Thesaurus to Find a Synonym
- Formatting Text
 - Using Live Preview
 - Working with the Format Painter

- Using Find and Replace
 - Searching with the Navigation Pane
 - Using the Find and Replace Dialog Box
 - Using Replace
- Navigating in Documents
 - Using Bookmarks
 - Using Hyperlinks
- Opening, Editing, and Saving a PDF File
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

WORD 2013 LESSON 4: CREATING A SIMPLE REPORT

- Formatting Reports
- Formatting Paragraphs
 - Comparing Paragraph Formatting to Character Formatting
 - Using Paragraph Alignment
 - Adding Hyphenation
 - Inserting a Nonbreaking Hyphen or Space
- Indenting Text
 - Adjusting Indents with the Ribbon
 - Setting Custom Indents on the Ruler
- Using Custom Tab Stops
 - Setting Custom Tab Stops with the Ruler
 - Working with the Tabs Dialog Box
 - Modifying Tab Stops with the Ruler
- Using Numbered and Bulleted Lists
 - Promoting and Demoting List Items
 - Using the Bullets and Numbering Libraries
 - Customizing Bullet and Number Styles
 - Restarting or Continuing Numbering
 - Setting Line Breaks
- Using Paragraph Space Settings
- Formatting with Borders and Shading
 - Using Borders and Shading Buttons and the Dialog Box
- Formatting Text with Styles
 - Understanding Types of Styles
 - Using the Styles Gallery and the Styles Task Pane
 - Collapsing Heading Topics
 - Creating a New Custom Style
 - Modifying, Removing, and Deleting Styles

- Navigating with the Navigation Pane
 - Rearranging Topics
- Introducing Headers and Footers
- Using the Resume Reading Bookmark
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

WORD 2013 LESSON 5: WORKING WITH TABLES

- Introducing Tables
 - Contextual Tabs
 - Navigating in a Table
- Inserting Tables
- Converting Tables
 - Converting Text to a Table
 - Converting a Table to Text
- Selecting Data in a Table
- Customizing Alignment, Direction, and Cell Margins
- Merging and Splitting Cells
- Formatting with Borders, Shading, and Styles
 - Modifying Formats
- Sorting Data in a Table
- Inserting Rows and Columns
 - Moving Rows and Columns
- Performing Calculations in Tables
 - Constructing Formulas
- Sizing Rows and Columns
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

EXCEL 2013 LESSON 1: EXPLORING EXCEL 2013

Presenting Excel 2013

Starting Excel

Windows 7

Windows 8

Exploring the Excel Program Window

Using Worksheets and Workbooks

Mousing Around in Excel

The Active Cell and the Highlight

Scrolling Along in a Worksheet

Navigating in a Worksheet

Customizing the Ribbon

Entering Data in Excel

Data Types

Completing Cell Entries

The Enter and Cancel Buttons

Deleting and Replacing Entries

Long Text Entries

Working with Numbers

Number Formats

Decimals and Negative Numbers

Understanding Save Concepts

Issuing Commands from the Keyboard

Closing Workbooks

Concepts Review

Reinforce Your Skills

Apply Your Skills

Extend Your Skills

Transfer Your Skills

EXCEL 2013 LESSON 2: EDITING WORKSHEETS

Opening Workbooks

Editing Entries

Replacing Entries

Deleting Characters

Selecting Cells and Ranges

Excel Ranges

Using Cut, Copy, and Paste

Paste Options

Moving and Copying Cells via

Drag and Drop

Moving and Copying Cells via

Right-Dragging

Using Undo and Redo

Undoing Multiple Actions

Clearing Cell Contents and Formats

Using Auto Features

Working with AutoFill

AutoComplete vs. AutoFill

The Auto Fill Options Button

Using AutoCorrect

Expanding AutoCorrect Entries

Undoing AutoCorrect Entries

Creating and Editing AutoCorrect Entries

Concepts Review

Reinforce Your Skills

Apply Your Skills

Extend Your Skills

Transfer Your Skills

EXCEL 2013 LESSON 3: CHANGING THE APPEARANCE OF WORKSHEETS

Exploring the Many Views of Excel

Zooming the View

Printing Worksheets

Print Preview

Print the Worksheet

Printing Selections

Editing Workbook Properties

Standard Properties

Advanced Properties

Managing Worksheets

Copying and Hiding Worksheets

Modifying Columns and Rows

Inserting and Deleting Columns,

Rows, and Cells

Formatting and Hiding Columns and Rows

Hiding and Unhiding Columns and Rows

Changing Vertical Alignment and

Rotating Text

Rotating Text

Concepts Review

Reinforce Your Skills

Apply Your Skills

Extend Your Skills

Transfer Your Skills

EXCEL 2013 LESSON 4: WORKING WITH FORMULAS AND FUNCTIONS

- Working with Formulas and Functions
 - Using AutoSum to Create a SUM Formula
 - Status Bar Functions
- Creating Formulas
 - Cell and Range References
 - The Language of Excel Formulas
 - “Please Excuse My Dear Aunt Sally”
- Using Cell References in Formulas
 - Relative Cell References
 - Absolute Cell References
 - Mixed References
 - Using the [F4] Function Key
- Modifying and Copying Formulas
 - Modifying Formulas
 - Copying Formulas
- Displaying and Printing Formulas
- Using Formula AutoComplete
 - Functions Defined
- Using Insert Function
- Creating Formulas with the IF Function
 - IF Function Syntax
 - How the IF Function Works
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

EXCEL 2013 LESSON 5: FORMATTING CELL CONTENTS, BASIC SKILLS

- Formatting Worksheets
 - Formatting Entries
- Using Excel’s Alignment and
 - Indent Features
 - Aligning Entries
 - Indenting Cell Entries
- Using Excel’s Text Control Options
 - Merging and Splitting Cells
 - Wrapping Text
 - Shrinking Text to Fit Within a Cell

- Formatting Numbers
 - Using the Number Command Group
 - Applying the Percent Style
 - How Numbers Display in Cells
 - Adjusting Decimal Places
 - Displaying Negative Numbers
- Using the Format Cells Dialog Box
- Applying Borders and Fills to Cells
 - Applying Borders
 - Applying Fill Colors and Patterns
- Using Excel’s Find and Replace Commands
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

EXCEL 2013 LESSON 6: CHARTING WORKSHEET DATA

- Creating Charts in Excel
 - Chart Placement
 - Choosing the Proper Data Source
 - Chart Types
 - Chart and Axis Titles
 - Chart Formatting Control
- Moving and Sizing Embedded Charts
 - Moving Embedded Charts
 - Sizing Embedded Charts
 - Deleting Charts
- Exploring Other Chart Types
 - Line Charts
 - Pie Charts
- Modifying Existing Charts
 - Changing the Chart Type and Source Data
 - Modifying and Formatting Chart Elements
- Applying Layouts and Styles to Charts
 - Formatting Attributes Controlled by the Selected Style
- Creating Trendlines
- Creating Sparklines in Cells
 - Formatting Sparklines
- Previewing and Printing Charts
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

POWERPOINT 2013 LESSON 1: CREATING AND DELIVERING A PRESENTATION

- Presenting PowerPoint
 - Starting PowerPoint
 - Creating a New Presentation
 - Navigating the PowerPoint Window
 - Saving the Presentation
 - Inserting Text
- Using Document Themes
 - Choosing a Theme
 - Using the PowerPoint Ribbon
 - Choosing Slide Sizes
- Creating a Basic Presentation
 - Adding Slides
 - Indenting Bulleted Lists
 - Choosing the Slide Layout
- Delivering the Slide Show
 - Delivery Tips
 - Navigating Through a Slide Show
- Getting Help
 - Using Online and Offline Help
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

POWERPOINT 2013 LESSON 2: DESIGNING THE PRESENTATION

- Working with Slides
 - Copying Text and Objects
- Working with Outlines
 - Using the Outline Panel
 - Collapsing and Expanding Slides
 - Deleting Slides
- Working with Word Integration
 - Creating a Presentation Outline in Word
- Formatting Your Presentation
 - Formatting Text
 - Setting Character Spacing
 - Setting the Text Case
 - Setting Line Spacing
 - Setting Paragraph Alignment
- Using the Format Painter
 - Loading the Format Painter
- Using the Slide Sorter
 - Rearranging Slides

- Organizing with Sections
 - Creating Sections
 - Managing Sections
- Printing Your Presentation
 - Knowing What You Can Print
 - Previewing a Printout
 - Using the Print Shortcut
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

POWERPOINT 2013 LESSON 3: ADDING GRAPHICS, ANIMATION, AND SOUND

- Working with Online Pictures
 - Using Text and Object Layouts
 - Deleting Placeholder Text
 - Searching for Clip Art with the Insert
 - Pictures Search Window
 - Moving, Sizing, and Rotating Objects
 - Stacking Objects
 - Formatting Clip Art
- Adding Other Graphics
 - Removing a Background
 - Applying Artistic Effects
 - Inserting a Screenshot
 - Working with Shapes
 - Adding a Shape
 - Adding Text to a Shape
 - Resizing a Shape
 - Merging Shapes
 - Formatting Shapes and Shape Text
- Working with Slide Transitions
 - Creating Transitions in Slide Sorter View
- Using Slide Animation
 - Adding Animations
 - Setting Animation Options
 - Using the Animation Pane
- Adding Sound Effects
 - Adding a Sound Effect to an Animation
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

POWERPOINT 2013 LESSON 4: INSERTING CHARTS

Inserting Charts

- Creating Embedded Charts
- Modifying Charts
- Changing Chart Style and Color Scheme

Working with External Excel Documents

- Benefits of Linking
- Linking Excel Charts
- Effects of Linking
- Editing the Source (Linked) Document
- Maintaining Healthy Links

Creating SmartArt Diagrams

- Inserting and Formatting SmartArt Graphics
- Formatting SmartArt
- Adding Elements to SmartArt

Concepts Review

Reinforce Your Skills

Apply Your Skills

Extend Your Skills

Transfer Your Skills

ACCESS 2013 LESSON 1: EXPLORING ACCESS 2013

Defining Access Databases

- What Is a Database?
- Purpose of Databases
- Database Management Software

Exploring the Access Environment

- Starting Access
- Opening an Existing Database
- Identifying Features of the Database Window

Introducing Access Objects

- Tables
- Forms
- Deleting Records Using a Form
- Queries
- Reports

Closing a Database and Exiting Access

Concepts Review

Reinforce Your Skills

Apply Your Skills

Extend Your Skills

Transfer Your Skills

ACCESS 2013 LESSON 2: DESIGNING A DATABASE AND CREATING TABLES

Designing a Relational Database

- What Is a Relational Database?
- Gathering Data
- Importance of Good Database Design

Normalizing Databases

- Planning Related Tables

Linking Tables with Primary and Foreign Keys

- Primary Keys
- Foreign Keys
- Identifying Relationship Types
- Developing an Entity Relationship
Diagram
- Defining Data Types

Creating Access Tables in a New Database

- Creating a New Database
- Creating Tables in Design View

Retrieving Data

- Sorting Records
- Sorting Records Using Multiple Fields
- Filtering Records
- Filtering Records by Form
- Update Records with Find and Replace

Concepts Review

Reinforce Your Skills

Apply Your Skills

Extend Your Skills

Transfer Your Skills

ACCESS 2013 LESSON 3: WORKING WITH FORMS

- Exploring Form Design
 - Examining Form Views
 - The Property Sheet
- Creating Forms
 - Identifying a Record Source
 - Using the Form Wizard
 - Working with Form Controls
 - Deleting Controls
 - Arranging Controls
 - Applying Themes to Forms
- Modifying Form Controls
 - Editing Labels
 - Using Design Font Tools
 - Using the Property Sheet
 - Using the Fill Color Palette
- Modifying Form Layout
 - Displaying Form Header and Form Footer
 - Adding Unbound Controls to a Form
 - Setting Additional Form Properties
 - Setting a Form Tab Order
 - Creating Multiple Items Forms
 - Creating Split Forms
- Printing Forms
 - Printing All Record Forms
 - Printing Selected Record Forms
- Using Help
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

ACCESS 2013 LESSON 4: QUERYING A DATABASE

- Creating Select Queries
 - Reviewing Query Features
 - Identifying Tools for Creating Select Queries
 - Creating a Select Query Using Query Design
 - Designing a Query Using Multiple Tables
 - Choosing Fields to Include in a Query
 - Selecting a Field that Appears in Multiple Tables
- Setting Query Criteria
 - Adding Criteria to a Query
 - Using Wildcards
 - Setting AND and OR Criteria
 - Entering Date Criteria
- Sorting a Query and Limiting Results
 - Setting a Query Sort Order
 - Limiting Number of Results Displayed
- Performing Calculations in Queries
 - Identifying Parts of a Calculated Field
 - Creating and Formatting a Calculated Field
 - Using a Function in a Query Expression
- Creating Special Types of Queries
 - Creating a Crosstab Query
 - Creating Unmatched and Duplicates Queries
 - Viewing Structured Query Language (SQL)
- Concepts Review
- Reinforce Your Skills
- Apply Your Skills
- Extend Your Skills
- Transfer Your Skills

INTEGRATING 2013 LESSON 1: MULTITASKING WITH OFFICE 2013

Task 1: Outlining the Project

Multitasking

Task 2: Emailing a Meeting Agenda

(Word/Outlook)

Task 3: Checking Email Replies

(Outlook/Word)

Task 4: Creating a Budget Workbook (Excel)

Task 5: Querying a Database (Access/Excel)

Task 6: Creating a Column Chart (Excel)

Task 7: Creating a Factsheet Document

(Word/Excel)

Task 8: Creating a Presentation

(PowerPoint/Word)

Importing Slides from a Word Outline

Styles

In-place Editing of Office

Program Objects

Task 9: Printing Handouts

(Word/PowerPoint)
