# Working with Vendors

endors are the people and businesses you buy products and services from. In this chapter, you will build a Vendors list. You will prepare vendor-related purchase and expense transactions, such as creating an Accounts Payable bill and recording a credit card and debit card purchase. You will also create vendor Accounts Payable and purchase-related management reports to assist with purchase history and unpaid bills.

# LEARNING OBJECTIVES

- Set up vendors
- ▶ Edit settings and preferences
- Create expense transactions
- Make payments to vendors
- Create vendor reports

# Project: Craig's Design and Landscaping Services

Craig Carlson purchases supplies from a number of businesses. He would like to set up all these businesses as vendors in QuickBooks Online. Craig pays for his purchases in several different ways. He has an account with some of his vendors, so that he can make purchases and then receive a bill to be paid later. Craig also uses his credit and debit cards for many purchases.

# The Expenses Center

The Vendors list is located in the Expenses center on the Navigation bar. It provides information about your vendors and your transactions with them in a single place. It allows you to perform vendor-related tasks such as searching for vendors, adding vendors, importing vendor lists, editing and merging vendor information, and making vendors inactive. The Expenses center also includes tools that allow you to quickly perform tasks such as printing and exporting Vendors lists, and adjusting list settings.

- Money bar
- 2 New Vendor icon
- Print, Export, and Settings icons
- 4 Individual vendor actions menu
- 5 Vendor search field

# The Money Bar

The Vendors list contains a multi-colored money bar that gives you a quick snapshot of Accounts Payable, including open, past-due, and paid bills. You can click the money bar sections to access more detailed information about these bills.

## The Vendors List

The Vendors list displays vendor names, contact information, and open balances at a glance, as well as detailed transaction information when you select a specific name. The Action menu lets you quickly create transactions for the selected vendor.

You can add vendors individually or you can import them from an Excel or CSV worksheet.

# **Adding Vendors**

QuickBooks Online does not allow you to add two vendors with the same exact name. You must include a middle initial or other distinguishing identifier in the Display Name As field to make the names different.

Tip! Using the Expenses center is not the only way to add vendors. You can also add new vendors from within a purchase/expense form by typing the vendor name and adding details as directed.

As you create new vendors, enter as much information as possible so you can fully utilize the power of QuickBooks Online data when creating management reports. For example, be sure to include address and contact information in the Vendors list.

## **DEVELOP YOUR SKILLS 4-1**

In this exercise, you will add a new vendor in Craig's Design and Landscaping Services.

**Before You Begin:** Access the QuickBooks Online test drive at qbo.intuit.com/redir/testdrive and leave the test drive open for the entire chapter.

**Note!** Remember, the QuickBooks Online user interface is updated frequently, so some of the names and features in course exercises may differ from what you see on your interface.

- 1. Click **Expenses** on the Navigation bar and then click the **Vendors** tab.
- **2.** Click the **New Vendor** button at the top-right corner of the browser window.
- **3.** Type **Morning Supplies** as the company name and then tap **Tab**].
- **4.** The display name should fill automatically; if not, type **Morning Supplies** here and then tap **Tab** twice.
- 5. For the address, type **1458 Magnolia** and tap **Tab**, type **Bayshore** and tap **Tab**, type **CA** and tap **Tab**, and then type **94305** and tap **Tab** five times.
- **6.** Type **650-555-8814** in the Phone field.

#### 7. Choose **Net 10** in the Terms field.

#### 8. Click Save.

The Display Name As field is the only required field to set up a new vendor. By completing more fields, you will be able to create more vendor management reports.

# Importing Vendor Data from an Excel or CSV File

QuickBooks Online allows you to import vendor lists from an Excel or comma-separated values (CSV) worksheet. One way you can import vendor lists is by accessing the Import Data tool from the Gear menu.

The Import Data tool allows you to import information not only about vendors, but also about customers, Charts of Accounts, and products and services. The tool includes forms and prompts to help you upload and map your lists to QuickBooks Online format. This feature is a great time-saver for existing businesses that have large lists.

QuickBooks Online often provides multiple ways to do something, depending on where you are working within the application. Besides using the Import Data tool, you can also import data from within the Expenses center.

₹ Expenses center→New Vendor menu ▼ →Import Vendors

# Editing, Merging, and Making Vendors Inactive

Your Vendors list is customizable. After you add a vendor, you can go back and edit the record. You can also merge two vendors if you find that the same one is listed twice. Doing so will combine all the vendor's transactions into a single record. Finally, to keep your Vendors list current and less cluttered, you can inactivate vendor records that you are no longer dealing with. As with customers, you can inactivate vendors but never truly delete them.

## **DEVELOP YOUR SKILLS 4-2**

In this exercise, you will edit vendor data, merge two vendor records, and make one vendor inactive. Books by Bessie notified you that they have moved. You will start by editing the address.

- 1. Choose **Books by Bessie** from the Vendors list.
- 2. Click the **Edit** button and then type the new address as shown:

- 3. Click Save.
- 4. Return to the Vendors list.

# Merge Two Vendors

You have discovered that Lee Advertising is actually owned by Tony Rondonuwu. You will now merge these two records.

- **5.** Choose **Tony Rondonuwu** from the Vendors list.
- 6. Click the Edit button and then change the display name to: Lee Advertising

7. Click **Save** and confirm the change, and then return to the **Vendors** list.

## Make a Vendor Inactive

Craig reviewed the Vendors list and wants to remove old or inactive vendors. Squeaky Kleen Car Wash closed last month, so you will make this vendor inactive.

- **8.** Select **Squeaky Kleen Car Wash** from the Vendors list.
- **9.** Click the **Edit** button and then click **Make Inactive** at the bottom of the window; confirm the change when prompted.
- 10. Return to the **Vendors** list.
- **11.** To see a complete list of vendors, including inactive vendors, click the **Settings** icon above the Action menu and then click in the checkbox for **Include Inactive**.

The inactive vendor is now included in the list, but it has been deleted.

# Creating Vendor Transactions: Purchases and Expenses

Vendor transactions in QuickBooks Online are recorded either as an expense when you pay at the time of purchase, or as a bill if you make a purchase and pay later. Expense forms are used for all payments made with a debit card, credit card, automatic withdrawal, or wire transfer. If you have an account with your vendors, you will enter the bill on the date you made the purchase and pay the bill at a later time.

Remember that all QuickBooks Online forms are intuitive. An expense form will always credit the bank or credit card account chosen. A check form will always credit the bank account chosen. A bill form will always credit Accounts Payable; this default setting cannot be changed.

## Expense form

## Check form

Bill form

# **BEHIND THE SCENES**

In accrual basis accounting, you record the expense when you have the obligation to pay. Remember, QuickBooks Online is a double-entry accounting system, meaning every time one account is affected, there is an equal and opposite effect on a corresponding account. QuickBooks Online handles all the accounting for you. Here is an example of what's happening behind the scenes.

When entering a bill for General Supplies for \$230, the Supplies Expense record increases with a debit and the Accounts Payable (liability) record increases with a credit.

Accounts Payable
230

When the bill is paid, the Checking Account record will decrease with a credit, and the Accounts Payable account will decrease with a debit.

Checking	Account	Accounts Payable	_
	230	230	

# Customizing Expense Form Settings

Before you begin recording expense transactions, decide what information should appear on expense forms and then check that form settings are appropriate for your business. Although you can customize the content of expense forms by using the Edit icon in the Expenses folder, you cannot customize their appearance (as you can with customer forms such as invoices and sales receipts).

In the following figure, all of the defaults are "On" for Craig's Design and Landscaping.

Account and	Settings		
Company	Bills and expenses	Show Items table on expense and purchase forms  Track expenses and items by customer	On On
Expenses		Make expenses and items billable  Default bill payment terms	On
Advanced	Purchase orders	Use purchase orders	On

When you click the Edit 💇 icon in the Bills and Expenses section, you can change the terms, markup, sales tax, and more.

 $\nearrow$  Gear \$  $\rightarrow$ Account and Settings $\rightarrow$ Expenses

# Creating Check, Expense, and Bill Records

QuickBooks Online forms are designed to work dynamically with one another. If you link your Chart of Accounts and your Products and Services lists correctly as you prepare your expense or purchase forms, the appropriate accounting transactions will be created when you make a transaction.

If you write a check at the time of a purchase, you will use a check form to record your transaction. If you use a credit card or debit card to pay for items at the time of purchase, you will use an expense form. If you purchase goods and services and pay for them later, then you will enter the transaction in a bill form and pay the bill at a later date.

*Warning!* It's not a good practice to record expenses on a journal entry or directly on a bank withdrawal form. The profit and loss report would be correct, but the purchases/expenses would not appear on vendor reports.

## **DEVELOP YOUR SKILLS 4-3**

In this exercise, you will record a check, a credit card purchase, and a debit card purchase for purchases made on September 1, 2021. You will start by recording a purchase made by check at Morning Supplies.

Craig stopped by Morning Supplies to purchase some materials he needed. It was a small purchase, so he used a check that he happened to have in his wallet.

- **1.** Choose Create  $\bigcirc$   $\rightarrow$  Vendors $\rightarrow$ Check.
- 2. Choose Morning Supplies as the payee field and tap Tab.
- **3.** Choose **Checking** as the account type, if necessary, and tap **Tab** twice.
- **4.** Type **09/01/2021** for the payment date and tap Tab.
- **5.** If necessary, enter **71** as the check number (it will likely AutoF ill for you).
- **6.** Choose **Job Materials:Plants and Soil** in the Account field and tap **Tab**].

- 7. Type Misc. Plants and Plant Feed in the Description field and tap Tab.
- **8.** Type **42.75** in the Amount field.

9. Choose to Save and Close the check form.

## Create an Expense Form

Craig met Bill for a quick lunch at Bob's Burger Joint on 09/01/2021. Craig paid with his debit card. You will now use an expense form to record the transaction.

Tip! When entering an expense transaction, it's important to indicate from which account it was paid.

- **10.** Choose **Create ○ →Vendors**→**Expense**.
- **11.** Choose **Bob's Burger Joint** in the payee field and tap Tab.
- **12.** Choose **Checking** as the account type, if necessary, and tap **Tab**.
- **13.** Type **09/01/2021** for the payment date and tap Tab twice.
- **14.** Type **Debit** in the Ref. No. field and tap **Tab**].
- **15.** Choose **Meals and Entertainment** in the Account field and tap **Tab**.
- **16.** Type **Lunch with Bill** in the Description field and tap **Tab**].
- 17. Type 24.97 in the Amount field.

#### 18. Choose Save.

Now you will view the accounting behind the scenes for this transaction.

19. In the bottom tray, click the More button and then choose Transaction Journal.

In this example, Meals and Entertainment is the debit and Checking is the credit.

## Record a Credit Card Purchase

In this transaction, you will enter a credit card purchase for coffee mugs with a logo from Mahoney Mugs.

- **20.** Choose **Create** → **Vendors**→**Expense**.
- **21.** Complete the Expense form as noted, tapping Tab to navigate the fields:
  - Payee: Mahoney Mugs
  - Account: Mastercard
  - Payment Date: 09/01/2021
  - Ref No.: MC
  - Account: Office Expenses
  - Description: Mugs with Logo
  - Amount: 36.50

22. Choose Save and Close.

# Managing Accounts Payable

You can use QuickBooks Online to manage your Accounts Payable—that is, purchases that will be paid later or on account. When vendors send you bills and you enter these bills in QuickBooks Online, you can keep track of the amount you owe for purchases in any given period. As you set up each vendor, you can specify the terms for that vendor. You can also enter the terms directly on the bill form.

## **DEVELOP YOUR SKILLS 4-4**

Craig has ordered new computers and monitors for his office from Computers by Jenni. They will be delivered today, 9/1/2021, and the terms are net 15 days. In this exercise, you will enter a bill for purchases made today and payable in 15 days.

- **1.** Choose Create  $\bigcirc$   $\rightarrow$  Vendors $\rightarrow$ Bill.
- 2. Complete the Bill form as follows, using Tab to navigate the fields:
  - Vendor: Computers by Jenni
  - Terms: **Net 15**
  - Bill Date: 09/01/2021
    Bill No.: 2021-1515
  - Account: Office Expenses
  - Description: Computer and Monitor
  - Amount: **1345.00**

- 3. Choose Save.
- **4.** In the bottom tray, choose **More**→**Transaction Journal**.

Accounts Payable is the credit, which increases liabilities on the balance sheet. Office Supplies is the debit, which increases expenses on the profit and loss statement.

# Accounts Payable Reports

The Reports center on the Navigation bar contains a number of vendor-related reports to help you manage your Accounts Payable. For example, the What You Owe section in the All folder lets you track what you owe and when payments are due so that you can manage your cash flow. The Accounts Payable Aging Summary report in the Recommended folder shows your unpaid bills and how long you have owed on them.

### **DEVELOP YOUR SKILLS 4-5**

In this exercise, you will create reports to assist you in managing the Accounts Payable for Craig's Design and Landscaping Services.

- 1. Click **Reports** on the Navigation bar.
- **2.** In the What You Owe section, click **Accounts Payable Aging Summary**.
- **3.** Type **09/30/2021** in the As Of field.
- 4. Click Run Report.

This report summarizes the vendors and the amounts due.

	Craig's Design and Landscaping Services

- **5.** To see details about various totals, click any amount.
- **6.** Review details as you like and then return to the **Reports** center.
- 7. Click the **Standard** tab, choose **What You Owe**, and then choose **Vendor Balance Summary**.
- **8.** Ensure that *All Dates* appears in the Report Period field and then click **Run Report**.

  This report gives you similar information as the Accounts Payable Aging Summary but in a different format.

# **Other Vendor Reports**

The All folder includes a category called Expenses and Vendors. These reports provide summaries and/or detailed information about purchases by vendor, as well as purchases by Product/Service.

Reports center→Standard tab→Review Expenses and Purchases

## **DEVELOP YOUR SKILLS 4-6**

In this exercise, you will prepare a vendor report to show Craig the transactions for each vendor last month.

- 1. Open the Reports center and choose Standard tab→Expenses and Vendors→
  Transaction List by Vendor.
- 2. Choose Last Month in the Report Period field and click Run Report.

A partial list of the report appears here. Your dates will vary.

# Paying Bills

When you pay bills in QuickBooks Online, you choose the account to make the payment from. When you pay with a check, the Accounts Payable (liability) decreases *and* the checking account balance (asset) decreases. You can also pay bills with a credit card.

## **DEVELOP YOUR SKILLS 4-7**

In this exercise, you will pay all the bills that are past due and print checks.

- **1.** Choose Create  $\bigcirc$   $\rightarrow$  Vendors  $\rightarrow$  Pay Bills.
- 2. Choose **Checking** as the payment account and tap **Tab**.
- 3. Type 09/01/2021 as the payment date field and tap Tab.
- **4.** The Starting Check No. field should fill in with check number 72; if not, update it accordingly.

- **9.** At the top of the Print Checks window, verify that **Checking** is selected as the account type.
- 10. Enter 72 in the Starting Check No. field and then click Preview and Print.

If this were a real work situation, you would now load your checks into your printer. For this example, you will print on plain paper or to a PDF file.

- **11.** On the Print Preview screen, click **Print** and choose to print on blank paper or to a PDF file. (If printing to PDF, choose an appropriate name for the file.)
- **12.** Close X the Print Preview screen.
- **13.** Click **Done** in the next window and then **Close** X the Print Check window.
- **14.** Return to the **Expenses** center.

No bills are overdue now.

# Tackle the Tasks

This is your opportunity to apply some of the skills learned in this chapter to accomplish additional tasks for Craig's Design and Landscaping Services. To refresh your memory, refer to the concepts and Develop Your Skills exercises as needed.

Before You Begin: Close the current test drive window and then open a new test drive window.

For these exercises, you will work with Puppy Luv Pampered Pooch, the company account created in your trial subscription to QuickBooks Online.

Sadie has given you some bills that have been paid with a check, debit, or credit card. She also has a few bills that need to be scheduled for payment later. Recording these expenses for Puppy Luv Pampered Pooch is an opportunity to reinforce some of the skills learned about vendors and expenses.

#### **REINFORCE YOUR SKILLS 4-1**

## Add and Edit Vendors

In this exercise, you will add new vendors to the Puppy Luv Pampered Pooch company file.

**Before You Begin:** Access your trial subscription to QuickBooks Online. Read any alerts or reminders that appear and close any unnecessary windows.

- 1. Open the **Expenses** center and then click the **Vendors** tab.
- **2.** Click the **New Vendor** button and set up the following new vendors:
  - Sundown District Water, PO Box 1455P, Los Angeles, CA 90051
  - Silva's Catering, 123 East Southside, Los Angeles, CA 90022; 310-555-1414
  - Steve Nguyen, 78441 Normandie Ct., Los Angeles, CA 90005; 310-555-8138
- **3.** Edit the Ace Groomer and Supply Company vendor with this new information:

Hector@Ace.email.net

## **REINFORCE YOUR SKILLS 4-2**

# Review and Set Default Expense Settings

In this exercise, you will review and set the Expense form defaults for Puppy Luv Pampered Pooch.

- **1.** Choose **Gear**→**Your Company**→**Account and Settings**.
- 2. Click Expenses in the Navigation bar.
- 3. Edit the default bill payment terms to **Net 15**.
- **4.** Ensure that the option to use purchase orders is turned **Off**.

### **REINFORCE YOUR SKILLS 4-3**

# Create Purchase and Expense Forms

The Grand Opening party for Puppy Luv Pampered Pooch was a great success. Sadie has given you all the receipts for the party expenses, plus a few bills that need to be scheduled for payment. In this exercise, you will create the purchase/expense transactions for Puppy Luv Pampered Pooch. You will need to add a vendor.

- 1. Choose **Create** → **Vendors** → **Check** and record the following: Check number 10006 for \$200 to Silva's Catering for all food and beverages for the Grand Opening; Meals and Entertainment account; dated 08/01/2021.
- **2.** Choose **Create**→**Vendors**→**Expense** and record the following: \$125 paid by debit card to Steve Nguyen for Window Display; Marketing account; paid on 07/28/2021.
- **3.** Choose **Create**→**Vendors**→**Bill** and record the following: Bill number 2021-115 dated 7/28/2021 for \$55.50; from Bonni's Dog Biskits, 144 Beach Rd., Ventura, CA 93003; for some treats for the pooches; Pooch Supplies account; due in 15 days.

#### **REINFORCE YOUR SKILLS 4-4**

## Create a Vendor Report

Sadie would like a report to show all of the vendor transactions to date. In this exercise, you will create some vendor- and expense-related reports for Sadie.

- 1. Open the Reports center.
- 2. Click the **Standard** tab, choose **Expenses and Vendors**, and then choose **Transaction** List by Vendor.
- 3. Choose All Dates as the report period and then click Run Report.

Your report should look like this.

	TRANSACTION LIST BY VENDOR All Dates

Now it's time to use your new skills to prepare all the Puppy Luv Pampered Pooch purchase and expense transactions for the first few weeks of August. The first step in the accounting cycle is to analyze the transaction, determine what accounts will be affected, and then choose the appropriate action—in the right sequence and on the right form. The second step is to record the transaction.

In these exercises, you will perform these steps of the accounting cycle. To simulate a real-world accounting environment, some of the information to be entered is presented in a random fashion—imagine a pile of bills, receipts, and notes that you have to sort through and analyze. Take your time and think carefully about your choices.

# Prepare Report and Pay Bills

Sadie has asked you to provide a list of all unpaid bills. She will advise you about which bills to pay and any additional reports she would like to review. In this exercise, you will prepare a report of unpaid bills for Sadie.

- 1. Prepare an Accounts Payable Aging Summary report as of August 15, 2021.
- Export the report to Excel, saving it in your Chapter 04 folder as: CH04 AP Aging
   8.15.21
- **3.** Pay all the bills due by 8/12/2021 on **8/10/2021**. The beginning check number is **10007**.
- 4. Print the checks to a PDF file and then save checks 10007–10008.
- **5.** Print a **Vendor Balance Summary** report for all dates. *The balance should be \$315.80.*
- Export the report to Excel, saving it in your Chapter 04 folder as: CH04 Vendor Balance Summary
