Setting Up a New Company File

Learning Objectives

- Create a new company file
- Customize the company settings
- Import external lists and transactions
- Manage users
- Add and categorize products and services
- Convert data from other accounting programs

Planning and Creating Your Company File

- Ensure you have the data you need:
 - General company information
 - Business address
 - Bank account names
 - Types of goods or services the company will provide
- Migrate QuickBooks Desktop into QBO
 - or-
- Import data from a different accounting app using CSV, QFX, QBO, OFX or TXT files

Customizing Your Company File

- Select your settings from the start:
 - Company information (name, logo, type, contact info./ address)
 - Company preferences
 - Activate special features specific to certain businesses
- Chart of Accounts
 - Foundation of the company file
 - Makes up the general ledger
 - Categorizes transactions
 - Basis for financial statements

Customizing Your Company File (cont.)

Chart of Accounts (COA) account types:

- Assets
- Liabilities
- Equity
- Income
- Cost of goods sold
- Expenses

TIP! *QBO creates a default COA with products/services based on info provided at setup. Each product/service links to one or more accounts in the COA.*

Customizing Your Company File (cont.)

- Set up products and services carefully
 - Doing so ensures QBO can perform complete and accurate accounting
- Edit or inactivate any unneeded items QBO provides by default (some can't be made inactive)
- Sales taxes are required for companies registered to collect and remit them
 - It's up to the business to know what's required
- The primary administrator controls user access and monitors activity

Opening Balances and Historical Transactions

- Be sure to record balances or transactions from before the start of the new QBO file
- QBO guides you through the import
 - A three-step process

The screenshot displays the QBO import interface. On the left, a vertical progress bar shows three steps: 1. Upload (highlighted with a green circle), 2. Map Fields, and 3. Import. The main content area is titled 'First things first' and includes instructions about mandatory fields in the CSV file. It features a 'Preview what's required' button with a blue arrow. Below this, the 'Upload your CSV file' section contains a 'Download an example' link, a 'Select .csv' input field, and a 'Browse' button. At the bottom, there are two checkboxes for adding new contacts and products/services that don't already exist in QuickBooks.
