Preface

Generative AI Foundations Exam Objectives

Unit 1: Foundations of Generative AI

1 Understanding Types of AI

- 1.1 Generative AI
- 1.2 Predictive AI
- 1.3 Discriminative AI
- 1.4 Analytical AI
- 1.5 Statistical AI
- 1.6 Comparing Types and Overlap
- Case Study

2 AI Technologies

- 2.1 Architectures and Models
- 2.2 AI Systems
- 2.3 AI Products
- 2.4 Limitations and Rapid Change
- 2.5 Reliability, Privacy, and Hallucinations
- Case Study

3 GPTs and LLMs

- 3.1 GPTs
- 3.2 LLMs
- 3.3 Input Types
- 3.4 Output Types
- 3.5 Common Input/Output Pairings
- Case Study

Unit 2: Working with AI Tools

4 Choosing the Right Tools

- 4.1 Key Considerations
- 4.2 Designing and Creating Custom Models
- 4.3 Connecting Tools to Workflows
- 4.4 Available Tools
- Case Study

5 Text Generation and Transformation

- 5.1 Text Generation with Prompts
- 5.2 Summarization
- 5.3 Content Creation and Ideation
- 5.4 Reformatting and Editing
- 5.5 Personalizing and Translating
- Case Study

6 Generating Images and Visuals

- 6.1 Generating Images Containing Text
- 6.2 Exploring Artistic Ideas
- 6.3 Transforming Images
- 6.4 Describing Image Content
- 6.5 Transforming Media Types
- 6.6 Visualizing Content
- Case Study

7 Video and Audio Generation

- 7.1 Colorizing and Adding Motion to Images
- 7.2 Text to Video
- 7.3 Generating Avatars and Objects
- 7.4 Subtitles and Narration
- 7.5 Audio – Text to Speech and Cloning
- 7.6 Audio — SFX, Songs, Mixing
- Case Study

Unit 3: Prompt Engineering

8 Prompt Characteristics

- 8.1 Prompt Content
- 8.2 Prompt Styles
- 8.3 Prompt Personas
- 8.4 Prompt Context
- Case Study

9 Prompting Techniques

- 9.1 Zero-shot
- 9.2 Few-shot
- 9.3 Chain-of-Thought
- 9.4 Self-consistency
- 9.5 General Knowledge
- 9.6 Prompt Chaining
- 9.7 Reverse Prompting
- Case Study

10 Prompt Analysis and Refinement

- 10.1 Translation Glossaries
- 10.2 Prompt Templates
- 10.3 Using Documents as Input
- 10.4 Using Earlier Conversations
- Case Study

11 Verifying Accuracy

- 11.1 Verifying Historical Facts
- 11.2 Verifying Current Events
- 11.3 Verifying Numerical Data
- 11.4 Using Reliable Sources
- Case Study

Unit 4: Ethics, Impact, and Oversight

12 Understanding AI Bias

- 12.1 Training Bias
- 12.2 Model Bias
- 12.3 Prompt Bias
- 12.4 Guardrails and Filters
- 12.5 Common Biases and Propagation
- Case Study

13 Legal and Policy Considerations

- 13.1 Intellectual Property
- 13.2 Legal and Inappropriate Use
- 13.3 Transparency and Documentation
- 13.4 Company Policies
- Case Study

14 Privacy and Data

- 14.1 Personal and Private Training Data
- 14.2 Identity Theft and Misuse
- 14.3 Opting Out and Consent
- 14.4 Protecting Personal Information
- Case Study

15 Human Oversight and Harm

- 15.1 Human Oversight
- 15.2 Individual Responsibility
- 15.3 Harmful and Dangerous Content
- 15.4 Preventing Misuse
- Case Study

16 Societal Impact of AI

- 16.1 Negative Effects
- 16.2 Positive Effects
- 16.3 AI Access and Digital Divide
- 16.4 Legal Precedent
- Case Study

Glossary
