UNIT 1

Windows 10 Basics

CHAPTER 1

Getting Your First Look	3
Logging In to Windows	5
Passwords	5
What Happens During the Startup Process?	5
The Windows 10 Desktop	7
Basic Computer Components	8
Start Button	10
Icons	10
Notification Area	10
Network Connection	11
Using a Mouse	11
Mouse Motions	11
Passwords and Account Settings	14
Accessing Account Settings	14
Signing Out and Switching Users	15
Switch Users	16
Locking the Computer	16
The Start Menu	18
Commands	18
Start Menu Panes	19
Most Used Apps List	21
Live Tiles	21
Sizing Live Tiles	22
Turning Off Live Tiles	23
Pinning Commands to the Start Menu	24
Moving Tiles on the Start Menu	24
Shutting Down	27
Shut-Down Methods	27
Sleep	28
Shut Down	28
Restart	28

CHAPTER 2

Starting and Controlling Apps	37
Controlling App Windows	39
Quick-Sizing Buttons	39
Moving and Resizing App Windows	42
Touch Controls	45
Touch Gestures	46
Touchpad Controls	47
Working with the Taskbar	47
Notification Area	48
Pinning and Unpinning Apps	49
Action Center (Notifications)	50
Notifications	51
Actions	53
Multitasking	53
App Switching	55
The Flip Command	57
Show Desktop and Task View	59
The Usefulness of Multitasking	60

CHAPTER 3

Creating an Online Account	65
Why Online?	67
The Cloud	67
Microsoft Office Online	67
Creating Your Microsoft Account	68
Account Verification	68
Making Connections	71
Logging In to OneDrive and Online Apps	72
Online Messages	72
Always Logged In	76
Opening Microsoft Office Online Apps	76

CHAPTER 4

Working with Apps.81

App Commands.	83
Menu Commands.	83
Commands in Programs with Ribbons	85
Saving Your Work	87
Where Your Work Is Located.	87
Files and Folders.	88
Choosing a Storage Location	88
Filenames	89
Save Versus Save As	90
The Work Area.	93
Mouse Pointers.	93
Tool Galleries	94
Scroll Bars	97
Typing with Word Online	99
Word Online Ribbon	99
The Cursor and the Mouse Pointer.	100
Special Keys on the Keyboard.	101
Editing Text.	103
Selecting Text	103
Formatting Text	105
Printing a Document	107
Saving as a PDF File	109
Cut, Copy, and Paste	111
Keyboard Shortcuts.	112
Advanced Cut, Copy, and Paste.	113

CHAPTER 5

Using Email119

What Is Email?	121
How Does Email Work?	121
Email Address.	122
Outlook.com	122
The Outlook.com Screen	124
Sending Messages.	125
Address Line	127
Subject Line.	128
Writing Your Message	128
Attachments	130
Receiving and Replying to Messages	132
Replying	133
Deleting.	134

Saving Emails	135
Creating and Deleting Folders	135
Moving Emails	136
Saving Email Addresses.	138
Email Safety.	138
Understanding the Threats	139
Protecting Yourself	142
Deleting Spam in Outlook.com	143

UNIT 2

File Management

CHAPTER 6

Finding Files153

About Storage Media	155
Types of Storage Devices.	155
Viewing Storage Drives	157
Drive Designations	158
Plugging In and Unplugging a Flash Drive	159
File Explorer	162
Common Folder Window Tasks	162
Locating Folders.	163
Navigating Your Drives and Folders.	163
The Address Bar	164
The Back and Forward Buttons.	166
Units of Measure for Computer Storage	168
The View Tab.	169
Identifying the Contents of a Folder	172
The Folders Pane.	172
Searching for Files.	175

CHAPTER 7

Storing Files181

Creating Folders	183
Creating New Folders.	183
How Files Are Stored in Your Computer	184
Renaming Files and Folders	185
Creating Subfolders	188
Moving and Copying Folders and Files.	190
The Cut, Copy, and Paste Method.	190
How the Commands Work	190
The Drag-and-Drop Method	194
Selecting Multiple Files	196

Deleting and Restoring Folders and Files	198
The Recycle Bin	198
Deleting Folders and Files	199
Restoring Folders and Files	199
OneDrive File Storage	201
Creating OneDrive Folders	202
Navigating Between Folders	204
Uploading Files to OneDrive	205
Downloading from OneDrive	206

UNIT 3

The Internet and More

CHAPTER 8

Using the Internet215

The Internet	217
The World Wide Web	217
Equipment Used to Connect to the Internet	218
Connection Types	220
Web Browsers	222
Uniform Resource Locators (URLs)	223
Basic Navigation	225
Hyperlinks	226
Tabbed Browsing	227
Working with the Hub	229
Printing a Web Page	230
Favorites	232
Favorites Bar	234
Creating Folders in Favorites	236
Removing Favorites	237
Reading View	238
History	240
Downloads	240

CHAPTER 9

Researching on the Internet247

Performing a Basic Web Search	249
How Search Engines Work	249
Basic Search Techniques	249
Improving Your Search Results	252
The World of Search Engines	253
The Hidden Web	254
Difficult Searches	254
Searching for Images	255

Creating Web Notes in Edge	256
Web Notes Tools	257
Saving Web Notes	258
Sharing Web Notes and Web Pages	259
Defending Yourself from Web Threats	260
Threats While Surfing	260
Protection Software	261
Using Social Media Sites Safely	262
Steps You Can Take	263

CHAPTER 10

Using Settings and Help271

Searching Windows and the Web	273
Choosing a Search Link to the Internet	275
Getting Help	276
Say “Hey” to Cortana	276
Do I Know You?	277
Talking to Cortana	280
Using Settings	280
Settings vs. the Control Panel	282
Controlling the Screen	283
Screen Resolution Settings	283
LED Monitors and Aspect Ratios	284
Changing the Background Image	286
Power Options	286
Battery Saver	287
Power & Sleep	287
Additional Power Settings	289
Windows Update	290
The Trend Toward Automatic Updates	292
The Store	293
What’s in the Store?	293
Downloading Apps	295
Glossary	305
Index	307
